

Release Notes PrimePortal 4.4

This release contains a few enhancements and bug fixes. It is rather small, since our main focus is on the upcoming SharePoint 2013 version of PrimePortal.

URL LINKS FOR TICKETS

URL's will be detected and displayed as clickable links in multiline text areas when tickets are in view mode.

Description
 Test link on a separate line:
<http://www.cgi.com>

The same line: <http://www.cgi.com>

Withing parenthesis (<http://www.cgi.com>) might work as well?

With a comma or dot at the end like <http://www.cgi.com>, or just <http://cgi.com>.

#define4 wiki syntax (not fully supported): [<http://www.cgi.com> CGI link]

URL's will also be displayed as links in the change log.

▼ Change log Quick filter:

URL LINKS FOR ORDERS

It's implemented about the same way for orders (against #define 3).

Comments will be displayed with links in the change log.
